ZHULIAN M-belt

Stylish & Elegant

Whether it's a **formal meeting** or **a night out with your buddies, M-belt** will be able to keep up with your every move!

Comfortable, lightweight, durable, versatile with bio-magnetic function!

Styling Tips!

When you want to appear professional, remember to match the strap and the metals of your belt to your outfit. Ensure the colour of your strap matches the colour of your shoes, and the colour of your buckle matches your accessories, such as your watch and bracelet.

Why choose **M-belt**?

It's Fashion Meets Wellness

On the surface, **M-belt** buckle is adorned with clear, shimmering CZ embellishment to exude subtle elegance. Behind the beautiful buckle is a powerful 1700 gauss Bio-north Ultra High Performance Neodymium Permanent Magnet. The magnet is light in weight but has greater strength which is believed to create a deep penetrating magnetic field to help boost health and well-being.

Versatile

Not only will **M-belt** keep your pants up and your shirt tucked neatly, it can help you to be taken more seriously with a more polished look. It can also be worn for a casually elegant look. Carrying a rugged look with this belt will still certainly gets you a compliment!

The Perfect Gift

This magnetic belt is a perfect gift for loved ones. Packaged in a beautiful gift box, **M-belt** is ever-ready to be given as a present for any occasion!

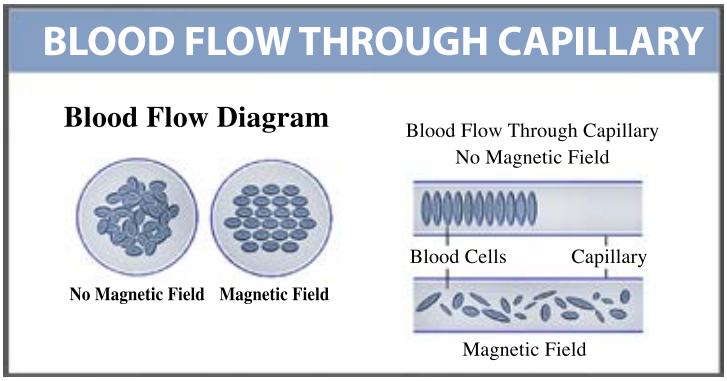

What is Bio-Magnetic?

Magnets and magnetic field are believed to help people heal from all sorts of chronic health conditions for thousands of years. Bio-magnetic healing is believed to have positive effect to human body by improving blood circulation and aid healing.

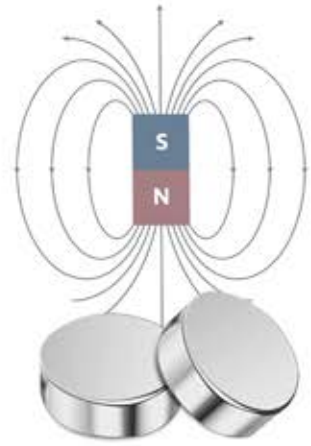

According to the National Center for Complementary and Alternative Medicine, "There is growing evidence that magnetic fields can influence physiological processes." Magnetic field is an invisible region of space around a magnet or electric current in which a detectable force is exerted from the body of the magnet.

Magnets can realign the cell's polarity to help the cell to function normally. Magnets is able to cause an increase in the widening of the body's blood vessels, allowing more blood with nutrients and oxygen to flow to the injured area and remove the toxins from the tissues.

How it works…

Human body has a negative charge on the outside and a positive charge on the inside. This allows for electrical signaling to move throughout the body. When a part of the body is in pain, the area responds with inflammation, which is caused by a lack of blood flow. This lack of blood flow blocks the body's natural ability to provide oxygen and nutrients to the cells. The magnetic field is believed to help the body to release its natural painkillers, hence providing an effective alternative for self-healing.

M-belt has a piece of Bio-north Ultra High Performance Neodymium Permanent Magnet attached to the back of its buckle.

How is the magnet beneficial to the body?

- Improve Circulation
- Improve efficiency of waste removal
- Release Fatigue
- Reduce Inflammation
- Support the body's healing process
- Better Sleep
- Pain Relief
- Improve Flexibility
- Improve Energy

Wearing M-belt at the waistline allows the magnetic waves to directly penetrate the abdominal area. This area is well known in Qi Gong and Tai Chi as one of the major "Dan Tian" or "energy gates" ~ 'Head', 'Heart' and 'Abdomen' that can regulate body energy.

Stylish and Elegant, Uniquely M-belt!

Looking at the versatile designs, you would want to grab more than one!
