

Let's Make Cleanliness A Way Of Life!

Health, hygiene and cleanliness are especially important now when the entire globe is battling an invisible enemy that has visible effects everywhere.

However, we must make cleanliness as a lifelong habit, not only a phase of life during an outbreak. Besides ensuring the cleanliness of our living surroundings, we need to keep our personal hygiene in check too.

Now more than ever, we have to be mindful of things we touch that can result in contamination and the spread of unwanted bacteria and virus. Keeping clean is vital!

--- Cleaning hands at the right time with soap / handwash and water or hand sanitiser with at least 60% alcohol content is one of the most important steps you can take to avoid the spread of germs.

--- The Centers for Disease Control and Prevention (CDC) recommended frequent handwashing for at least 20 seconds to prevent the spread of the virus that causes COVID-19.

It is important to understand that soap / handwash combined with water is more effective than hand sanitisers. That is because the molecules are effective at destroying the surface membranes of some bacteria and viruses. In addition, the lathering of hands and scrubbing thoroughly creates friction that helps lift away dirt, grease and microbes under running water. However, when soap / handwash and water are not available, applying a sufficient amount of hand sanitiser will be the best alternative!

Besides ensuring the cleanliness of the hands, do not forget to pay attention to other parts of your skin as well. Make bathing once you reached home as part of your good hygiene practice because germs can live on different part of your body too, not just the hands!

Here are

5 REASONS Why You Will LOVE PurelyZ...

• Epidemic, Pandemic, Endemic

As we are moving from one phase to another, it's important to note that a once-declared endemic can progress back into a pandemic status. Therefore we have to continue to stay vigilant as well as put health and hygiene as our top priority. PurelyZ range of products offer **antiseptic properties** to protect you and your loved ones by keeping the hands and body **clean and fresh** daily!

• Effective Antibacterial Formulation

It is an antibacterial formulation effective at killing up to 99.99% germs, bacteria and viruses, without harmful chemicals. Packed in handy bottles, PurelyZ range of products are lightweight enough and can be easily carried around in a small bag, when you are on-the-go!

• Lock In Moisture

PurelyZ range of products contain Vitamin E & Aloe Vera which offer antioxidant and anti-inflammatory properties. The application helps to soothe and hydrate the skin, relieve the skin from dryness and itch, and making it feels moisturised afterwards.

• Skin-friendly Formulation

PurelyZ range of products use skin-friendly formulation, especially great for sensitive skin. They are formulated to keep skins clean yet does not stripped of its natural oils. Most importantly, all are safe and gentle for all in the family to use!

• Interchangeable Usage

PurelyZ Antibacterial Body Wash, PurelyZ Antibacterial Hand Wash and PurelyZ Hand Sanitiser are substitutable. When you are out and about, PurelyZ Hand Sanitiser is handy for you to keep your hands clean. If you run low on hand wash, you can use PurelyZ Antibacterial Body Wash to wash your hands. Vice versa, if you have forgotten to replenish your body wash supply, you can also use PurelyZ Antibacterial Hand Wash to cleanse your body as PurelyZ formulations are safe and gentle for use on hands and body.

WASH YOUR BODY THE RIGHT WAY

1.

Wet skin on entire body.

2.

Use a small amount of PurelyZ Antibacterial Body Wash on a washcloth or the palm of your hand.

3.

Clean your body. Start at your neck and shoulders, and work down the length of your body, legs and between toes too.

4.

Rinse it off with running water.

5.

Pat your body dry with a soft, clean, dry towel.

Do NOT use hot water for showering / bathing as it will strip away natural oils on the skin, making it prone to dryness and damages faster.

Limit your showering time to less than 10 minutes, to minimise skin drying.

WASH YOUR HANDS THE RIGHT WAY

1.

Place your hands under running (cold or warm) water and add PurelyZ Antibacterial Hand Wash.

2.

Rub your hands together, making a soapy lather.

3.

Wash the front and back of hands, between your fingers and under nails for at least 20 seconds or two rounds of the song "Happy Birthday."

4.

Rub your hands under running (cold or warm) water to rinse off the soap.

5.

Dry your hands thoroughly with a clean towel or air dry them.

Make it a habit to clean your hand with soap / handwash and water for at least 20 seconds.

Teach your little ones to clean their hands longer by singing a birthday song twice for each hand cleaning session.

SANITISE YOUR HANDS THE RIGHT WAY

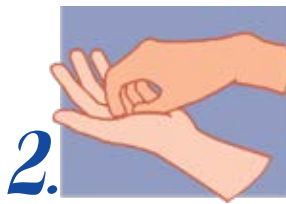

1. Apply enough PurelyZ Hand Sanitiser onto palm of hand.

4. Rub between each finger.

7. Clasp right thumb with opposite palm then rub thumb in rotational manner. Repeat with left thumb.

2. Rub tip of each finger in the opposite palm, left and right.

5. Rub back of left and right hands.

8. Rub left and right wrists.

3. Rub both palms together.

6. Form a fist and rub back of hand, left and right.

Supervise young children when they use hand sanitiser.

Do NOT rinse or wipe off the hand sanitiser before it's dry; it may not work well against germs.

Keep your **hands** and **skin clean**, practise **good personal hygiene** with
